

List of Cookies

A cookie is a small data file (text file) that a website, when visited by a user, asks your browser to store on your device in order to remember information about you, such as your language preferences or login information. We set these cookies, called first-party cookies. We also use third-party cookies, which are cookies from a domain different from the one of the website you are visiting, for our advertising and marketing efforts. Specifically, we use cookies and other tracking technologies for the following purposes:

Strictly Necessary Cookies

These cookies are essential for the website to function and cannot be switched off in our systems. They are usually set in response to actions you have taken, such as setting your privacy preferences, logging in, or filling in forms. You can set your browser to block or alert you about these cookies, but some parts of the website may not function properly. These cookies do not store any personally identifiable information.

Functionality Cookies

These cookies allow the website to provide enhanced functionality and personalization. They may be set by us or by third parties whose services we use on our website pages. If you do not allow these cookies, some or all of these services may not function properly.

Targeting Cookies

These cookies may be set through our website by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant adverts on other websites. They do not directly store personal data, but are based on uniquely identifying your browser and internet device. If you do not allow these cookies, you will experience less targeted advertising.

Performance Cookies

These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our website. They help us know which pages are the most and least popular and see how visitors move around the website. All information collected by these cookies is aggregated and therefore anonymous. If you do not allow these cookies, we will not know when you have visited our site.

Social Media Cookies

These cookies are set by social media services that we have added to the website to enable you to share our content with your network and contacts. They also allow us to track your browsing across other websites and build a profile of your interests. This may impact the content and messages you see on other websites you visit. If you do not allow these cookies, you may not be able to use or view these sharing tools.
